

**Timing of
The Billion Soul Harvest – As Suggested Through Revelations
Given to Prophet Bob Jones
Author Russ Porcella**

The timing of the billion-soul youth harvest promised to prophet Bob Jones is anticipated globally by untold numbers of people. Among them, questions linger as to where, when, how it will actually begin and how will it be known that it has really begun. While timing is known to and is of the Lord, He chose Bob Jones to be a very significant prophetic voice for the billion soul youth harvest. Bob often stated Jesus sent him back from a 1975 death experience to specifically help a few of the early leaders of a global end-time ingathering of souls unto Jesus. (1) While much of the end-time harvest was revealed to Bob Jones, there are many other pivotal movements, layers, streams and harvest-related assignments that Bob was not given insight into. Nevertheless, there is much that may be gleaned out of what was revealed to him. He had been told by the Lord in his 1975 death experience that the final harvest target would be significantly among the youth of the world. Through the years Bob was given insight, understanding and details that looked into aspects of this harvest in a significant manner. It must be understood, that Bob was given a clear generational view of the timing of this event. He was told in his 1979 “Sands of Time” vision experience that the end-of-the-age global harvest would be initiated in his lifetime. (2) The impact of all of the harvesting elements will be to change how the world views and respects Christianity. The Gospel of the Kingdom will be proclaimed throughout the entire earth as Jesus proclaimed it in His time of personal earthly ministry. (2)

In the early developmental years of KC-IHOP, Bob Jones played a major role and many of the prophetic promises regarding the coming harvest were revealed there. Bob and Mike Bickle did a four-mp3 audio interview-telling of many aspects of the prophetic history of the coming harvest and its connectedness with Kansas City IHOP in 1988. (1,2) Bob also did an extended video retelling of many of these things with Wesley Campbell in 2003. (3,4,5) Through the years, Bob did an unknown number of audio and video interviews retelling aspects of these things. This article has been written to draw from some of the available resources to call attention to some of the process and timing of this billion-soul youth harvest. The bibliography at the end would be a good starting point for further understanding of these things.

Harvest Groupings

One must take note that Bob specifically addressed at least five of the very different groupings of people God would be raising up for end-time harvest purposes. Bob did not claim to know

the total number globally the Lord would be raising up. Three of these diverse groups, shown to Bob, were directly related to one another in a generational linking. According to the 1979 "Sands of Time" (2) vision Bob had, the induction of people into an initial generation of the Harvest Army of God would begin in 1981. (2) Two somewhat related generations would follow this initiating or parent generation. These three related generations will be described later in the text. Bob talked of two additional harvest groupings God pointed out to him. They are only briefly spoken to by Bob and this article.

A. God's Deliverers

Bob spoke of a unique grouping he labeled "God's Deliverers." These are people who began surviving abortion after it was legalized in the US in 1973. In 2003 these "deliverers" began to function in a type of spiritual priesthood functioning in a preparing the global church for harvest in 2003. (3,4)

B. Eagles

Bob identified a different grouping of people designated as the "Eagles." He understood the "Eagles" main purpose would be focused on and would be mainly responsible for the great awakening in Russian-speaking countries. (4)

C. Three "Related" Generations - Introduction

How should one approach understanding God's revealed process and timing?

The biblical record and Bob Jones both significantly hold to a generational perspective. The generation is the focal target. There will be signs and wonders in the heavens and on earth (Matthew 24). They will ultimately culminate in the final end-time generation. In the pre-flood days of humanity, God identified Noah as the one person who was righteous before Him in his generation (Genesis 6:9 & 7:1). In the covenant God established with Abraham, he was told his descendants would be servants in a strange land for four hundred years. God revealed that in the fourth generation they would return to the land He promised to them (Genesis 15). The book of Matthew identifies the forty-two generations, starting with Abraham, that preceded the first coming of Jesus Christ. In Matthew 24 Jesus spoke of the generation that would not pass until the end had come. God gave to Bob Jones a generational understanding in leading up to and fulfilling the roles assigned to them by God for the pending harvest. (2)

D. The Generation of the Young People Who Were Coming (Parent)

The revelations given to Bob encompass a number of different harvest-related aspects of this incredible time in history. He understood that three consecutive generations would arise. He understood the first of the three generations he would ultimately influence would be called the "Generation of the Young People that are Coming." Bob was told God would begin inducting

300,000 “Gideon army members” into leadership. (2) They have been drafted to help birth the harvest and provide leadership for two pending younger generations to follow. Mike Bickle spoke freely of himself being one within the generation of the young people that were coming. Bob understood that initially the portion of this generation he was to influence and protect was focused in Kansas City. This generation would certainly be global in its full expression. (2) The initial generation would experience induction in the time-frame of the 1980’s and 1990’s. They were being inducted to oversee, protect and get behind or support what God was doing. Bob knew that God would birth a prophetic and intercessory global movement that would love God with their whole heart. Their prophetic intercessory worship investments would help “birth” the end-time harvest in Israel and elsewhere globally. (2) Each one would start their induction journey as infants in the Spirit. If they stayed with God’s purposes and ways, they could eventually mature into and be given a special measure of the Spirit like unto the apostolic leaders of the New Testament. There would be many different levels of leadership among them. They would ultimately be the main leadership over the billion-soul-harvest and the developing new global world order of the end-time Church. This is certainly not the total scope of leadership in the harvest-enlarged end-time church. Bob understood the first inductions would occur when the US first-class postage rose to twenty cents. US postal records reveal that November 1, 1981 was the date 20 cents was required. (2)

Bob understood the three generations revealed to him would arise and start to function ultimately in three consecutive twenty-year time periods. The total duration of these generations was not a limited twenty-year period. Nor would any of each generation be born on day one of their generation time period. Additionally, no entire generation would cease at the end of their 20 year time period. Bob understood there would be a lot of overlapping of these three generations. (2,4,6) Generations are a living and evolving group of people. The group identified may be very limited and localized. One may also be as expansive as all the baby boomers in the world. Bob Jones’ understanding of a generation, especially that of the generation of the young people that were coming, was that it would ultimately incorporate three generations, such as Parents> Children> Grandchildren. His understanding mirrors that of 1 John 2. The apostle John identifies and writes specifically to the fathers, young men, and little children. Bob saw the “fathers” were like unto the generation of young people that came and or were inducted by God into His globally forming army.

E. The “Children” of the Generation of the Young People That Were Coming

The “children” of this starting generation would be like unto the young men or children of the inducted first generation. They may actually be the biological children of some of the initial generation that were raised up from their earliest years learning how to yield to and respond to the workings of the Holy Spirit. It is clear the “children” could also be those ministered to by the first generation or the “the generation of the young people that were coming”. (2) These

“children” would in part be part of the first two harvests preceding the final ending harvest God promised. In an interview on Extreme Prophetic, Bob revealed his understanding there would be a total of 3 harvests, all a part of the global end-time harvest. This first harvest would be between 2000 and 2012. He spoke of a second harvest as being between 2013 and 2020. (6) Just within the United States, there are many schools and training centers teaching a whole crop of harvesters how to more and more be responsive to the Holy Spirit. Significant leadership from the first generation of inductees has been doing its job of prophetic intercession and raising up “children” unto the hastening harvest. Bob revealed this second generation would walk in a greater anointing than their parent generation. Clearly a whole global company of harvesters and disciples who follow Jesus were and are being raised up. This generation of “children” is moving forward into foundations for the formation of a new global understanding and expression of the Church of Jesus Christ. (2,6)

F. The “Grandchildren” of the Generation of the Young People That Were Coming

As of the beginning of 2019, we are exceedingly close to the release of a yet third and final generation under the authority and leadership guidance of the generation of the young people who have now come. Bob referred to a third and final generation of harvesters as the “grandchildren” of the initial generation of the young people who have come. Bob understood the “grandchildren” would be the ultimate chosen generation of all history. They would be the finest of all bloodline seeds, reserved by God for the final generation. Bob was shown that the individual members of this “grandchild generation” were foreknown and predestinated to corporately inherit the “all things” promised to the church. While a few shadow examples of the coming stadium Christianity have appeared in the past nineteen years, the explosive reality of this third generation coming dynamic will be fulfilled, within the next twenty years. Bob has spoken multiple times that he believed the actual promised harvest would begin around 2020. (6) These young “grandchildren” harvesters may generally range from 1 to 20ish. They will be a part of and will help populate, through harvest, the glorious end-time church. Bob understood they would move globally in the same power and anointing Jesus did. They will also do works greater than those attributed to Elijah. (2,11) They would exceed every other generation in glorifying Jesus in devotion, anointing and power. They would be sovereignly equipped to do ministry and proclaim the Gospel of the Kingdom with unlimited measures of the Holy Spirit resting upon them. God is actually going to change how the globe understands Christianity and how it is expressed through this culminating generation. We are waiting on God’s timing for the arrival of this chosen, end-time generation. (2)

How Will These Things Be Possible?

Bob was shown in his Joseph’s Prison Experience of 1984(11) that the outpouring of the Holy Spirit on the day of Pentecost was one outpouring of three distinct but simultaneous dimensions (Wind, Fire and Wine). The end-of-the-age outpourings will involve three separate,

not simultaneous, dimensions of the Holy Spirit to equip the last generations and especially the third and ultimate chosen harvesters. The billion soul harvesters would not just mature into the unprecedented harvesters they will become. Their enabling would come due to many factors, ultimately because of increasing outpourings of the Holy Spirit. Bob saw the first would be and was the outpouring of the “wine dimension of the Holy Spirit” at Toronto. (11) Bob understood there is a chosen day coming in which God will pour out additional anointing’s of “the fire dimension of the Holy Spirit,” and ultimately the “Wind dimension of the Holy Spirit.” These prophesied anointings will change everything. The third end-time harvesting grouping will have available to them the full measure of the anointings of the Holy Spirit promised to them. It must be noted that Bob understood these unprecedented corporate enablings will as well be met with unprecedented conflicts. The conflicts and disagreements surrounding the Toronto outpouring would seem minimal compared to what is soon to descend upon the globe. The Toronto outpouring began January of 1994, in keeping with the timing God showed Bob it would start. Mike Bickle has spoken clearly and knowingly about all these things in his excellent 2002 review of these things. (11)

Keep Your Eyes On Russia

Bob understood the actual harvest would positionally start in the Russian-speaking nations. Within weeks of first meeting Bob Jones, the author of this paper conducted a filmed interview of him telling of the things the Lord had shown him regarding Russia. (7) In 1991 Bob was told to raise a man from the dead. The Lord spoke to that man while in heaven and told him to give Bob Jones a message. That man rose from the dead and gave Bob that message from the Lord. He stated Jesus told him the greatest awakening of all time would come out of Russia. (8) Bob had an encounter with a being he described as the archangel over the Russian Army of God in 1995. The angel told Bob he would send him Russia-focused prophecies from former true prophets of the Lord. Bob received an unrequested copy, the next day, of the Hudson Taylor end-time vision first. Hudson saw WW1, WW2, many conflicts around the globe, as well as many times of awakenings. Then Hudson was shown an all-consuming national spiritual awakening that would come to Russia that could never be exceeded. Hudson then saw the awakening spread to the rest of the world and then he saw the coming of Christ. (10) Bob accepted that as the truth. He was also sent an unrequested copy of the short book written by the late Sister Gwen Shaw. She wrote, “The Light Will Come From Russia.” It was ultimately an accounting of the prophecies of a deceased Russian Orthodox priest who understood Russia would suffer more than any other nation and would experience spiritual awakening that would influence the entire world. (9) Bob accepted these as the truth.

In 1983 Bob was given a most unusual time marker regarding the full blossoming of the billion soul harvest and changes in the church around the world. He saw his tombstone and a visual reference to a fulfilled promise of what was yet to come. He knew then that he would pass on to heaven prior to the blossoming of a new global church order and the billion soul harvest. Bob went to be with the Lord on February 14, 2014, some 30 plus years since he was notified of such by the Lord. (2)

The year 2020 is just a year away at this point in time. The stage is being set. Are you in the place God has for you? There will be more to come.
