

This is from Pertinent Prophecies #6 page #4 from Irene Foreman. It was published by Maranatha Ministries, Warsaw, Indiana. It is dated 1972.

The author of this experience states the Angel of the Lord took her to see a hidden bell tower being built. The details of the experience are remarkable in view of the prophecies of St. Seraphim of Sarov the the bells he prophesied would move to Diveyevo, Russia. Seraphim stated that when they were rung for the first time for one and a second one rung again after years, he would arise from the long dead and begin a massive world-wide repentance awakening prior to the Lord's return. While her title may or may not have been given to her by the Angel of the Lord, it is believed the experience is relevant to the coming resurrection of St. Seraphim of Sarov.. (Pastor Russ Porcella's comments)

*CONTROL SPIRITS AS MINIFESTED IN COMING WORLD SYSTEM: 1972*

*The angel of the Lord came to the one getting the vision and said, "Come, I want to show you something." And he took him to a great big tower-like building that was being built under wrappings—like a plastic wrapping you see on new buildings but indicating that the world did not know it was being built. It was being done "under cover".*

*Clear up to the top of it from the four directions were silver guide wires going clear to the top, even though it was still under wrap. The angel took him in and the lower floors were a bunch of old rubble from old buildings—dirt and filth. And these new higher levels were being built on top of all this. Then they went on up where there was all new flooring. And he knew that very shortly there was to be an open house and then everybody would come through and see the whole thing.*

*And up on one side was a bell swinging back and forth. And on the other side was another bell swinging, but they weren't making any noise because there weren't any clappers in them. And then in the middle above this was a big hole, much bigger, between the two bells, and it was empty. It was waiting for a bigger bell to be put in there.*
